Product introduction:

Nano Water Mist is equipped with high-tech chip control, producing a finer mist that quickly enters the skin pores, reducing wrinkles, relieving skin irritation, and also promoting skin metabolism and improving skin pigmentation.

How to use:

- * Please press the power button to turn on the mist, and blue light indicates being in use. With the time memory function, the Nano Water Mist will automatically power off in 60 seconds.
- * The skin without makeup is sprayed from about 10cm, and the makeup skin should be sprayed from around 15cm, which will not mess up your makeup.
- * Please fill in the water from the port. (Please use mineral water)

Open the water tank

Fill water into the water tank

Tighten the cap

How to charge:

- * Pour out all the water, and install the cap.
- * Please use the equipped cable to connect the USB port. (Android phone data cable can replace it)
- * Please don't use the Nano Water Mist when it was charging, extended battery life for better usability. And please charge for 3 hours when first time to use.

Cleaning and Maintenance

- * Before cleaning, please make sure the switch has been turned off, and the power plug has been pulled out from socket.
- * Please use a piece of clean and soft cotton cloth to clean this product. The cloth can be soaked in soap water first, but please dry it to damp before cleaning.
- * Do not use corrosive cleaning agents like benzene or thinner to clean the product, otherwise, the color of product will fade, and the internal parts may be corrupted or broken.
- * Please keep the product away from direct sunlight, or high temperature, to avoid fading.
- * Please clean the water tank and store in a dry place if not in use for long.
